#### Introduction

The information contained in this report is prepared based on financial information of the Least Developed Countries Fund as of March 31, 2017.

The LDCF was established following the decision of the Conference of the Parties to the United Nations Framework Convention on Climate Change (the "UNFCCC") at its Seventh Session ("COP 7") in November 2001 to invite the Global Environment Facility ("GEF") to operate such a fund (Decision 7/CP.7 of the UNFCCC). At its May 15-17, 2002 biannual meeting, the GEF Council (the "Council") approved the arrangements proposed for the establishment of such a fund and invited IBRD to act as its Trustee (GEF/C.19/6).

The report is produced by the Trustee in accordance with the Trustee's role as set forth in the paper entitled Arrangements for the Establishment of the New Climate Change Funds (GEF/C.19/6) which states:

"[...] the World Bank would be responsible for the financial management of each fund, including: [...] (iv) the preparation of financial reports regarding the investment and use of the funds' resources; and (v) regular reporting to the Council on the status of the funds' resources."

This report provides (i) a snapshot of the financial situation of the LDCF Trust Fund since its inception to March 31, 2017 and some of the recent developments from October 1, 2016 to March 31, 2017; (ii) the status of pledges and contributions, and (iii) the details of financial activities of the LDCF Trust Fund.

#### 3. Asset Mix and Investment Income

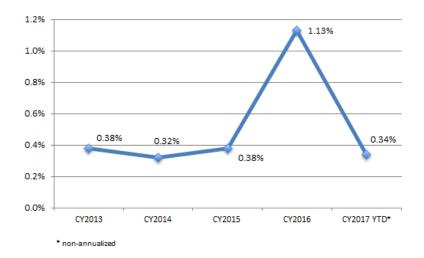

#### ASSET MIX

Funds held in trust by the World Bank (as the Trustee) are maintained in a commingled investment portfolio (the "Pool") for all trust funds administered by the World Bank. The assets in the Pool are managed in accordance with the investment strategy established for all trust funds administered by the World Bank. The chart reflects the asset mix of the portfolio in which LDCF funds are invested as of March 31, 2017.

#### **INVESTMENT RETURNS**

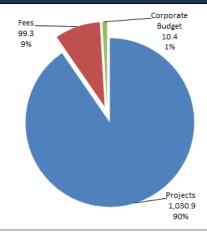

The LDCF funds are invested in accordance with the investment strategy established for all of the trust funds administered by the World Bank. On July 1st, 2015, the World Bank formally adopted the Conditional Value-at-Risk (CVaR) measure as the risk constraint in the management of trust funds. Funds are managed such that the expected maximum loss, as measured by the CVaR, at the portfolio's investment horizon, is not to exceed 1% with 99% confidence. The LDCF Trust Fund liquid portfolio (which totaled approximately USD 647.2 million at end-March 2017) earned approximately USD 32.74 million in investment income since inception. In addition, the investment income received from the external agencies is USD 0.40 million.
